The fund drive launched for *International Viewpoint* on 20 February [1.6 million reasons to help IV raise Â£1,600](#) is off to a flying start thanks to some generous contributions from readers.

While thanking those contributors, we urge other readers who can help to support us to do so as well. Our target was modest to meet immediate needs, but *International Viewpoint* is continuing in the long term.

One-off donations are always welcome, but so are continuing donations, even small, on a regular basis.

Donations can be made via Paypal. To donate, please click the grey button on the left hand column of the front page or follow this [link](#).

You can also make a bank transfer or set up a standing order to our account:
