The EU's weak point: Energy

The EU and Energy - and the three white elephants

One got the feeling that Frans Timmermans came flying in on a white elephant when he presented the EU solution for the future 'green' economy on 8 July: Hydrogen – the fuel that can be produced cleanly and must be used in the new hydrogen economy. Unfortunately, the road to the hydrogen economy is paved with CO2 emissions – and the EU solution has both economics, as well as natural laws, against it.
